### **REIKI**

Reiki is a method of transferring universal life-giving energy for the harmony of the body, mind and soul. It addresses both the cause and effect of illness. It is a technique for stress reduction and relaxation that allows everyone to tap into an unlimited supply of "life force energy" to improve health and enhance the quality of life. Reiki is a simple therapy to perform and receive but one that can be powerful in its outcomes.

The knowledge that an unseen energy flows through all living things and is connected directly to the quality of health has been part of the wisdom of many cultures since ancient times. As long as something is alive it has life force circulating through it and surrounding it, when it dies, the life force departs. If your life force is low, or restricted in its flow, you will be vulnerable to illness and dis-ease. When it is high and flowing freely, you are less likely to get sick. Life force plays an important role in everything that we do, it animates the body and also is the primary energy of our emotions, thoughts and spiritual life.

Overall, Reiki is about relaxation, letting all of our body systems work in harmony. When this balance is restored we feel lighter and more able to cope. We put things into perspective and function better on physical, mental and emotional levels

Full Session 28.00 **VIP 21.00**  
Half treatment 20.00 **VIP 15.00**  
Babies & Children 18.00

We run regular Reiki workshops that allow you to learn this fantastic therapy for yourself, please ask for details if you would like to embark on a journey of discovery.

### **REFLEXOLOGY**

Reflexology is a powerful holistic complimentary therapy (when the treatment is holistic the whole body is treated rather than just a specific symptom or area of the body). It involves the application of pressure to specific points, known as reflexes; on the feet encourage the body to heal from within. By correctly stimulating a system of specific pressure points on the feet where all of the nerve endings of the central nervous system including the internal organs and structures are mapped in miniature enables the body to function correctly. Reflexology is a complementary therapy that treats the person as a whole rather than just focusing on a set of symptoms. Holistic Therapies take the emotional and spiritual being into account as well as the physical. 28.00 **VIP 21.00**

### **HARMONIUS FUSION PACKAGE - For Your Mind and Body...**

A harmonious fusion of Reiki and Reflexology will give your mind and body the relaxation that it truly deserves. Reiki will start your body's own natural self healing process and help you to get into a state of deep relaxation, whilst reflexology uses compression massage to the reflex areas of the feet to release tension, improve circulation and create a general feeling of wellbeing. In our view it is a truly wonderful combination of treatments. This treatment is carried out whilst you are fully clothed - we suggest loose fitting trousers and t-shirt.

45.00 **VIP 40.50 PP**

## INFRARED SAUNA

### What are the main health benefits?

- Helps purify fat cells and controls weight
- Effective way to burn calories (up to 600 calories in one session)
- Detoxifies heavy metals, hydrocarbon residues, alcohol, nicotine, sodium and cholesterol
- Strengthens the cardiovascular system with deep Far Infrared penetration
- Effective for treating sprains, muscle spasms and joint stiffness
- Relieves aches and pains
- Improves and clears cellulite
- Improves skin tone and complexion
- Helps scars and burns, acne, psoriasis and eczema
- Sharpens senses and relieves stress and fatigue
- Stimulates endorphins of the brain and „feel good“ hormones
- Improves your immune system and kills organisms like bacteria and parasites
- Increases overall health and resistance to disease

Far Infrared Sauna is good for weight loss and burning calories. There is the obvious weight loss that is associated with burning calories. Most importantly, however, is the weight loss that occurs in those users with chemical toxicities. These are the people who have tried many diets with little or no results. Toxic chemicals are stored in the fat cells and the body will not let go of the fat unless the toxins are removed from the cells. The body very cleverly binds up these toxins in the fat to preserve other organs. Once the toxins are removed, the weight gain associated with high acidity/mal-absorption is also solved.

As you relax in the gentle heat of the infrared sauna, your body is actually hard at work, producing sweat, pumping blood – and burning calories. In a single sauna session you may burn as many as 600 calories, similar to exercising for 30 minutes.

Infrared is the only heat that penetrates deep enough into the tissues of the body to melt away cellulite and fats and the unique light wavelengths act to break down dangerous toxins and acids in the body

Our Infrared Sauna can be used as a standalone session and you can spend time in our tranquility lounge after your sauna, or you can add a sauna session onto the beginning or end of your treatment.

Please note your sauna needs to be booked, as you or yourself and friends will have the sauna exclusively during that time and it will not be used by other guests. The sauna seats 2 people and can be booked for 1 or 2 people.

30 minute Sauna session including use of the tranquility lounge afterwards. Towel and robe will be provided – 20 per session, per person. **VIP 15 pp**

Book 10 stand alone sauna sessions only pay for 6  
120 per person **VIP 90 pp**

## ENVIRON FACIAL TREATMENTS

All Environ facials use the highest quality ingredients and vitamins A, C & E, which are essential to maintain and repair the skin. All facials are tailored to your own personal skin requirements (prescriptive)

Following a detailed consultation, a personalised programme combining homecare products and facial treatments can be devised and agreed upon. Certain skin conditions are easier to treat than others but many skin conditions will see an excellent improvement in a very short space of time. Some skin conditions will take commitment, time and patience from both the client and therapist. During the consultation this will be discussed fully.

### ENVIRON FACIAL

Using active levels of Environ ingredients and vitamins, this treatment follows the lines of a more traditional facial of pampering and relaxing, whilst improving the skin. The end result will leave your skin feeling fresh and lovely. This facial is suitable for anyone whether they are using Environ homecare products or not.

39 **VIP 29.25**

### ENVIRON TEENAGE FACIAL

**You are never too young to start a good skincare regime**

A facial designed for young teenage skin, whether it be spotty, blackhead or simply skin that is feeling the effects of hormonal changes. Advice will also be given on how to look after and improve the skin whilst at home. This is a very popular treatment and effective. A deep cleanse, hot steam towels, mini massage, mask.

25 **VIP 18.75**

### LACTOGEL MANUAL FACIAL PEEL

Manual peels for problematic acne skins and acne rosacea. Peeling treatments should be done periodically but not continuously on acne-prone skins. It is recommended to have 6-8 or even in some cases 12 treatments once a week and then have a rest period of about three months and then periodic peels. In some cases a light peel once a month keeps the skin in excellent condition and is recommended as an additional treatment to the above mentioned facials. This treatment needs to be supplemented with a home care system.
